

ABOUT ME

Hello! I am Alexey Popkov. I am a front-end developer. I like to create beautiful UI for useful and interesting web projects. Now I am looking for a new project in ambitious company and friendly team. I love to learn new things and improve my skills.

SKILLS & PROFICIENCY

EXPERIENCES

Front-end Developer (React.js) July, 2019 - Present
CreatorIQ, Kharkov

The main direction of the company is the development and quality control of media sites in Canada. My main responsibilities include creating new pages and fixing old ones. Develop and support web apps created with Javascript, React.js

HTML coder January, 2019 - July, 2019
Digital Pro, Kharkov

In this company I was an html coder. I created sites from PSD layouts created by the designer. I optimized web pages for search engines, carried out adaptation. Used: html, bootstrap, flexbox, JS and jQuery.

Freelance December, 2017 - January, 2019
My first experience in IT was freelance, after I completed the Front End courses. I took orders for creating sites according to layouts, fixing errors in html code, and adapted for gadgets.
